DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because it is more than one paragraph in length. Correction is required. See MPEP § 608.01(b).

Allowable Subject Matter

2. Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record neither shows nor suggest a non-thermal plasma reactor characterized by: an element prepared from an extruded curved substrate comprising an outer wall surrounding a plurality of concentric channels separated by dielectric barriers, said element comprising: a plurality of exhaust channels for passing a flow of gas there-through; and a plurality of conductor channels, said conductor channels having alternating polarity, each connected to its respective polarity via bus paths.

Due to their dependency, claims 2-15 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. This application is in condition for allowance except for the following formal matters:

Please refer to the above Office Action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
